

OPERATION

PRE-RIDE INSPECTION

For your safety, it is very important to take a few moments before each ride to walk around your motorcycle and check its condition. If you detect any problem, be sure you take care of it, or have it corrected by your dealer.

WARNING

Improperly maintaining this motorcycle or failing to correct a problem before riding can cause a crash in which you can be seriously hurt or killed.

Always perform a pre-ride inspection before every ride and correct any problems.

1. Fuel level—Fill fuel tank when necessary (page 31).
2. Throttle—Check for smooth opening and full closing in all steering positions (page 82).
3. Engine oil level—Add engine oil if necessary (page 34). Check for leaks.
4. Drive chain—Check condition and slack, adjust and lubricate if necessary (page 84).
5. (Type II)
