

OPERATION

PRE-RIDE INSPECTION

▲ WARNING

*** If the Pre-ride Inspection is not performed, severe personal injury or vehicle damage may result.**

Inspect your motorcycle every day before you ride it. The items listed here will only take a few minutes to inspect, and in the long run they can save time, expense, and possibly your life.

1. Engine oil level—add engine oil if required (page 21). Check for leaks.
2. Fuel level—fill fuel tank when necessary (page 18). Check for leaks.
3. Front and rear brakes—check operation and if necessary, adjust free play (pages 11 – 14).
4. Tyres—check condition and pressure (page 22).
5. Drive chain—check condition and slack (page 58). Adjust and lubricate if necessary.

6. Throttle—check for smooth opening and closing in all steering positions.
7. Lights and horn—check that headlight, tail/stoplight, turn signals, indicators and horn function properly.
8. Engine stop switch—check for proper function (page 25).
9. Side stand ignition cut-off system—check for proper function (page 65).

Correct any discrepancy before you ride. Contact your authorized Honda dealer for assistance if you cannot correct the problem.
