

TIRE RECOMMENDATION

Correct air pressure will provide maximum stability, riding comfort and tire life.

Be sure to follow the tire specification.

Cold tire pressures psi (kg/cm ²)	Up to 200 lb load	Front : 26 (1.8) Rear : 28 (2.0)
	Up to vehicle capacity load	Front : 26 (1.8) Rear : 34 (2.4)
Vehicle capacity load	330 lbs (150 kg)	
Tire size	Front : 3.00-18 Rear : 3.50-18	
Tire brand	Front : SUPER SPEED 21F2 (Bridgestone) Rear : REAR SAFETY 10 (Bridgestone)	

CAUTION:

- **Overinflation or underinflation of the tires will cause abnormal tread wear or other damage and create a safety**

hazard. Riding with underinflated tires will cause the tires to slip on the rims damaging the innertube valves. Severe underinflation may result in loss of the tire from the rim.

- **Check tire pressures frequently and adjust if necessary.**
- **Replace the tires when the tread depth at the center of the tire is less than the service limit (refer to page 64).**
