

## **A WARNING**

- \* **Do not downshift when traveling at a speed that would force the engine to overrev in the next lower gear; the rear wheel may lose traction, resulting in a possible loss of vehicle control.**

## **CAUTION:**

- \* **Do not shift gears without disengaging the clutch and closing the throttle. The engine and drive train could be damaged by over-speed and shock.**
- \* **Do not tow the motorcycle or coast for long distances while the engine is off. The transmission will not be properly lubricated and damage may result.**
- \* **Do not ride over a curb or rub the wheel against an obstacle, as wheel damage may result.**

## **NOTE:**

- \* **The battery will not charge while the engine speed is near idle speed. Avoid idling for prolonged periods.**
