

PARKING

Touching the brakes after long hours or heavy usage, can cause burn injuries. Also, depending on the section, the engine can be hot, and cause burn injuries.

1. After stopping the motorcycle, shift the transmission into neutral and turn the fuel valve OFF. Push the engine stop button in and hold it in until the engine stops completely.
2. Use the side stand to support the motorcycle while parked.

Park the motorcycle on firm, level ground to prevent it from falling over.

If you must park on a slight incline, aim the front of the motorcycle uphill to reduce the possibility of rolling off the side stand or overturning.

3. Turn the ignition switch OFF and remove the key.

ANTI-THEFT TIPS

1. Be sure the registration information for your motorcycle is accurate and current.
2. Park your motorcycle in a locked garage whenever possible.
3. Use an additional anti-theft device of good quality.
4. Put your name, address and phone number in this Owner's Manual and keep it on your motorcycle at all times. Many times stolen motorcycles are identified by information in the Owner's Manuals which are still with them.
