

SPARK PLUG

Refer to the Safety Precautions on page 55.

Recommended plug:

Standard:

CPR6EA-9 (NGK)

For most riding conditions this spark plug heat range number is satisfactory.

NOTICE

Never use a spark plug with an improper heat range. Severe engine damage could result.

1. Disconnect the spark plug cap.
2. Clean any dirt from around the spark plug base.
3. Remove the spark plug using a spark plug wrench provided in the tool kit.
4. Visually inspect the spark plug electrodes for wear. The centre electrode should have square edges and the side electrode should not be eroded.
5. Discard the spark plug if there is apparent wear or if the insulator is cracked or chipped.
