ELECTRICAL

ACG fuse:

The ACG fuse, located under the left side cover, is: 55A

- 1. Turn the ignition switch OFF and disconnect the negative (-) terminal lead from battery before checking or replacing a fuse to prevent an accidental short circuit.
- 2. Remove the left side cover (page 71).
- 3. Remove the fuse cover.
- Loose the screws then replace the fuse.
 The spare fuse is located in the fuse cover.
 After replacing the fuse, tighten the screws.
- 5. Install the fuse cover and left side cover.
