

### **Repairing a Flat Tire**

If you have a flat tire, use the plug method to make a temporary repair. (The plug method is applied from the outside of the tire and is the same as that for conventional tubeless tires.)

A plug-type repair kit, available at most auto parts stores or service stations, provides a plug, an installation tool, tire cement, and an instruction sheet. Follow the instructions provided with the repair kit to make a temporary repair.

As soon as possible, have the tire permanently repaired by an authorized Honda dealer. Any tire that cannot be repaired should be replaced.

Whenever the *FOURTRAX* is to be operated far from service facilities or available transportation, we recommend that you carry a tire pump and a repair kit with the vehicle.
