

Engine Oil & Filter

Changing Engine Oil & Filter

Refer to *Safety Precautions* on page 75.

Your ATV's oil filter has very specific performance requirements. Use a new genuine Honda oil filter specified for your model or a filter of equal quality.

NOTICE

Using the wrong oil filter may result in leaks or premature engine damage.

This procedure requires mechanical skill and professional tools such as a torque wrench and oil filter wrench, as well as a means for disposing of the drained fluid (page 168). If you do not have the skills or the tools, see your Honda dealer.
