

A WARNING

The improper operation of ATVs may result in severe injury or death

- · Read the owner's Manual.
- · Follow all warnings and instructions.
- · Never use without proper training and instruction.

While riding:

- · Never ride too fast for your skills or the conditions.
- Always use proper riding techniques for hills, slopes and rough terrain.
- Use care when changing riding surfaces. ATVs handle differently on different surfaces, such as sand, dirt, or pavement.

 Never carry a passenger, since it would affect balance and steering and may cause you to lose control.

 Avoid operating on public roads, since a collision can occur with another vehicle.

Never ride after drinking alcohol or using drugs.

Always wear a helmet, eye protection, and protective gear.
