

# Brakes

## NOTICE

*Brake fluid can damage plastic and painted surfaces. Handle with care.*

Wipe up spills immediately. Avoid contact with skin or eyes. In case of contact, wash thoroughly and call a doctor immediately if it contacts your eyes.

## RIGHT HANDLEBAR

(1) LOWER level mark

1. Place your motorcycle in an upright position on a firm, level surface.

2. Check the fluid level.

It should be above the LOWER level mark (1).

If the level is at or below the LOWER level mark, check the brake pads for wear (page 115).

Worn pads should be replaced. If the pads are not worn beyond the recommended limit, have your brake system inspected for leaks.

## Other Inspections

- Make sure there are no fluid leaks.
- Check for deterioration or cracks in the hoses and fittings.
