

Battery

- Charge the battery (see following section), unless you have been riding regularly.
- Store your battery in an easy-to-reach location off the floor, in an area protected from freezing temperatures and direct sunlight.
- Clean the battery box after removing the battery for storage. Dry the battery box and, if paint is missing, re-paint the area.
- Slow charge the battery (see following section) once every 30 days.

Installation

- Remove the left side cover (page 71).
- Check the negative (-) terminal lead runs under the tool box (7), and is tucked up behind the guide tab (8).

- (4) negative (-) terminal lead
(7) tool box
(8) guide tab

- Reinstall in the reverse order of removal. Be sure to connect the positive (+) terminal first, then the negative (-) terminal.
- Check all bolts and other fasteners are secure.
- Install the remaining parts in the reverse order of removal.
