

## **WARNING**

- \* *Stop the engine and support the motorcycle securely on a level surface before performing any maintenance.*
- \* *Use new, genuine Honda parts or their equivalent for maintenance and repair. Parts which are not of equivalent quality may impair the safety of your motorcycle and the effective operation of the emission control systems.*

Consult your authorized Honda dealer for recommendations applicable to your individual "needs" or use pattern. If your motorcycle is overturned or involved in a collision, have your Honda dealer inspect the major components: frame, suspension and steering parts, for misalignment or damage.

The Emission Information Label is attached to the frame by the front of the engine.  
(USA ONLY)
