

Refuelling

Always Use Unleaded fuel.

When refueling, stop the engine and keep well clear of naked flames or other possible sources of ignition.

Warning:

Petroleum is highly flammable. When handling petroleum:

- Stop the engine. Keep well clear from naked flames, sparks, and any kind of heat source.
- Do not refuel indoors.
- Wipe off spilt fuel immediately.

Refuelling Instructions:

1. Open the key cover. Insert the Ignition key and turn it clockwise. Turn the fuel tank cap counter clockwise to remove.
