

Checking the Engine Oil

1. Park your motorcycle on its center stand on a firm, level surface.
2. If the engine is cold, idle the engine for 3 to 5 minutes.
3. Turn the ignition switch off, stop the engine and wait 2 to 3 minutes.
4. Check that the oil level is between the upper and lower level marks in the oil inspection window.
 - ▶ If required, clean the inspection window by turning the wiper.
