Is Your Motorcycle Ready to Ride?

Pre-ride Inspection		Fuel	Check the level and add fuel (page 57) if needed. Also make sure the fuel fill cap is securely
Check the following items before you get on the motorcycle:			fastened.
Tires	Use a gauge to check the air pressure. Adjust if needed. Also look for signs of damage or excessive wear (page 94).	Drive Chain	Check the condition and slack. Adjust and lubricate if needed. Also check the chain slider for wear and replace if needed (page 99).
Spokes & Rims	Make sure the spokes and rim locks are tight. Also check the rims for damage (page 89).	Cables	Check the cable housings for wear. Check the fittings for looseness. Replace or tighten as needed.
Leaks	Look under the motorcycle for signs of leaking fluids (fuel, engine oil).	Nuts & Bolts	Use a wrench to make sure all accessible nuts, bolts, and fasteners are tight.
Engine Oil	Check the level and add oil if needed (page 63).	Spark Plug & Cap	Check for looseness (page 76).
