

Aluminium components

Aluminium corrodes when it comes in contact with dirt, mud or road salt.

Clean aluminium parts regularly, and follow these indications to prevent scratches:

- Do not use stiff brushes, steel wool or cleaners containing abrasives.

Panels

Follow these indications to prevent stains and scratches:

- Wash the panels carefully with a soft sponge and plenty of water.
- Use diluted soap to remove tough stains, and rinse with plenty of water.
- Prevent petrol, brake fluid and detergent from contacting instruments, panels or the front headlight.

Aluminium components

Exhaust pipe and silencer

Do not use abrasive commercial cooktop cleaners to clean the exhaust pipe or silencer. Use a neutral detergent to clean the painted surface on the exhaust pipe and silencer. If you are unsure whether the exhaust pipe and silencer are painted, contact your dealer.
