

RADIATOR CAP LABEL

DANGER

Do not ever open it when it is hot.
The hot coolant will burn you.
The pressure relief valve is activated at 1,1 kgf/cm².

LOADING AND ACCESSORIES WARNING LABEL

WARNING

LOADING AND ACCESSORIES

- The stability and handling of this motorcycle can be affected by the addition of accessories and luggage.
- Read the instructions in this owner's manual and the installation guide carefully before installing any accessory.
- The total weight of the accessories and luggage, added to the rider's own weight, must not exceed **111 kg**, which is the maximum weight capacity.
- The addition of large fairings mounted on the fork or handlebars is not recommended.
- It is totally prohibited to transport cargo on the rear fender.
The motorcycle has not been designed for this purpose.
