

Periodic Checks

You should also perform other periodic maintenance checks at least once a month regardless of how often you ride, or more often if you ride frequently.

Also, check the odometer reading against the Maintenance Schedule and perform all maintenance that is due. 2 P. 72

Tires and wheels	Check the air pressure (2 P. 85), examine tread for wear and damage (2 P. 85), and check the wheels for damage.
Fluid levels	Check the engine oil level (2 P. 97), engine coolant level (2 P. 103), and brake fluid level (2 P. 105).
Lights	Check that the headlight, brake light, taillight, license plate light and turn signals are working properly.
Controls	Check the freeplay of the clutch lever (NC700X NC750XA) (2 P. 114) and throttle grip (2 P. 117), Check the front brake lever (2 P. 120), rear brake pedal and parking brake (NC700XD NC750XD) (2 P. 107) operate properly.
