

Accelerator Pedal

Adjustment

1. Remove the front seat (page 127).
2. Slide the sleeve back to expose the throttle cable adjuster.
3. Loosen the lock nut.
4. Turn the adjuster to obtain the correct freeplay.
5. Tighten the lock nut and reinstall the sleeve.
6. After adjustment, check for smooth operation of the accelerator pedal.
7. Install the remaining parts in the reverse order of removal.
