

# Seat

---

## Storing

1. Park your Honda SXS on a firm, level surface, and roll up the rear side nets (page 49).
2. Open the rear door (page 41).
3. Fold up the lower seat back and hook the strap ring to the stay.  
Be sure the seat belt buckles are lowered.
4. Pull the handle up and flip the seat back forward.
5. While pushing down on the rear seat, close the rear door.
