Is Your ATV Ready to Ride?

Check these items after you get on the ATV:

Check the freeplay and adjust if needed. Throttle

> Press the throttle to make sure it moves smoothly without sticking, and snaps shut automatically when it is released, in all

steering positions (page 107).

Brakes Squeeze the front and rear brake levers

> and step on the rear brake pedal to check that the controls operate normally. Check for proper freeplay (pages 121, 125, 127). Make sure there is no brake fluid leakage.

Check the freeplay and adjust if needed Reverse Assist Lever

(page 111). Make sure the lever operates

smoothly without sticking.

Headlight and Headlight Check for proper function (page 19).

Dimmer Switch

Engine Stop Switch Check for proper function (page 18).

Steering Check that the wheels turn properly as you

> steer the handlebar. Move the handlebar right and left and check that there is no

excessive backlash.

Remember, be sure to take care of any problem you find, or have your dealer correct it before you ride.
