

Servicing Your Honda

To help keep your ATV in good shape, this section includes a Maintenance Schedule for required service and step-by-step instructions for specific maintenance tasks. You'll also find important safety precautions, information on fuels and oils, and tips for keeping your Honda looking good.

For information about replacing a fuse, see page 167.

For information about the exhaust emission and noise requirements of the U.S. Environmental Protection Agency (EPA) and the California Air Resources Board (CARB), see page 182.

Maintenance, replacement or repair of the emission control devices and systems may be performed by any ATV repair establishment or individual using parts that are "certified" to EPA standards.
