## Distance to Waypoint

The distance to waypoint (1) display shows the straight line distance from your present location to the waypoint.

The distance range display shows three numerals with a “floating” decimal:

| Range                      | Display     |
|----------------------------|-------------|
| Less than 10 miles         | 0.00 – 9.99 |
| 10 miles up to 1,000 miles | 10 – 999    |

(1) distance to waypoint

USA: Displays read in mph and miles.

Canada: Displays read in km/h and kilometers.
