

## Brake Fluid

Do not add or replace brake fluid, except in an emergency. Use only fresh brake fluid from a sealed container. If you do add fluid, have the brake system serviced by your dealer as soon as possible.

### NOTICE

Brake fluid can damage plastic and painted surfaces. Wipe up spills immediately and wash thoroughly.

### Recommended brake fluid:

Honda DOT 4 Brake Fluid or equivalent

## WARNING

Clean filler cap before removing. Use only DOT 4 fluid from a sealed container.

## Final Drive Oil

### Recommended final drive oil:

Hypoid gear oil SAE 80

## Recommended Coolant

Pro Honda HP coolant is a pre-mixed solution of antifreeze and distilled water.

### Concentration:

50% antifreeze and 50% distilled water

A concentration of antifreeze below 40% will not provide proper corrosion and cold temperature protection. A concentration of up to 60% will provide better protection in colder climates.

### NOTICE

Using coolant not specified for aluminum engines or using ordinary tap water can cause corrosion.
