

EMISSION CONTROL INFORMATION LABELS (U.S.A. Only)

An Emission Information Label is located on the rear fender as shown. The seat must be removed to read it. It gives basic tune-up specifications.

VEHICLE EMISSION CONTROL INFORMATION UPDATE LABEL

After making a high altitude carburetor adjustment, attach an update label on the rear fender as shown.

VACUUM HOSE ROUTING DIAGRAM LABEL (California model only)

The Vacuum Hose Routing Diagram Label is on the rear fender as shown. The seat must be removed to read it.

Route the vacuum hoses as shown on this label.
