

## NSR250R(J)

### IGNITION TIMING

\* This machine uses CDI ignition system so adjustment of the ignition timing is not necessary

### AIR CLEANER

\* do not clean element with petrol, solvents or alkalis

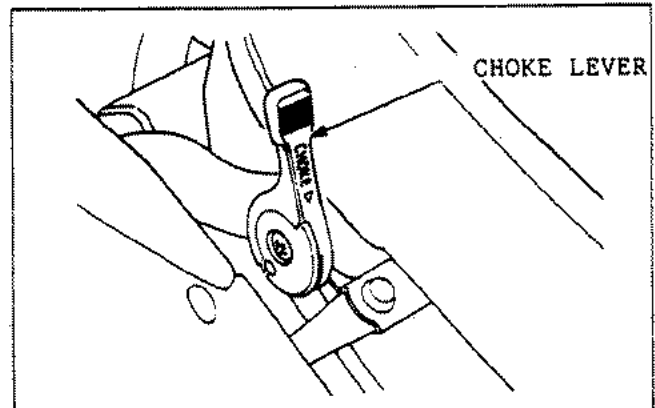

\* If element is installed squashed then it will become easily worn, thus needing replacement

### CHOKE

Inspect the choke cable and adjusters condition

Inspect for smooth operation from fully closed to fully open

### LIGHTING SYSTEM

headlight adjustment

With motorcycle on level ground adjust headlight by turning screw with a driver
